

SentinelOne Complete EDR.

Arm your endpoints with SentinelOne Complete EDR, offering unparalleled endpoint security and seamless scalability at ArmorPoint's industry leading prices.

Core Capabilities of SentinelOne Complete EDR

When you purchase SentinelOne Complete EDR through ArmorPoint, you gain access to an array of powerful capabilities:

USER INTERFACE ACCESS

Benefit from integrated access to both the SentinelOne UI and the ArmorPoint SIEM platform, designed to streamline all your support and monitoring activities of your unmanaged licenses.

DEVICE CONTROL

Securely manage and monitor USB and Bluetooth connections to safeguard your network from unauthorized access.

FIREWALL CONTROL

Regulate network connectivity to and from your devices, ensuring secure communications.

ROGUE VISIBILITY AND VULNERABILITY MANAGEMENT

Monitor rogue devices and manage third-party app vulnerabilities with real-time data linked to the MITRE CVE database.

DATA RETENTION

Get up to 14 days of data retention, providing you ample time to analyze and assess any security events or breaches.

ENVIRONMENT-WIDE REMEDiation CAPABILITIES

Utilize SentinelOne's Storyline Active Response (STAR) and custom rules for comprehensive remediation across multiple vectors, including email, network, and identity systems, ensuring a resilient security posture.

Why Purchase SentinelOne Complete EDR Through ArmorPoint?

UNPARALLELED PRICING

ArmorPoint provides SentinelOne Complete EDR at highly competitive prices, surpassing those offered by other industry-leading vendors like Pax8. Our structured pricing model is designed to deliver increasing value as your deployment scales, ensuring affordability without compromising quality.

INTEGRATED SUPPORT SYSTEM

With ArmorPoint, you'll receive the same high-quality support for your SentinelOne Complete EDR licenses. This support is facilitated through the limited-access ArmorPoint SIEM platform, which offers ticket submissions and support for license and sensor issues into a single, user-friendly portal.

SEAMLESS TRANSITION TO MANAGED SERVICES

While SentinelOne Complete EDR is sold unmanaged, ArmorPoint offers an easy path for those interested in advancing to a managed EDR solution. This approach ensures you can enhance your security posture when ready, leveraging your existing SentinelOne Complete EDR licenses without switching providers.

Exclusive Pricing Table

QUANTITY	PRICE PER ENDPOINT*
50 - 2,500	\$3.50
2,501 - 5,000	\$3.25
5,001 - 7,500	\$2.75
7,501 - 10,000	\$2.50
10,001+	\$2.25

*12-month minimum contract. Partner discount does not apply to unmanaged EDR licenses.

Get Advanced Endpoint Security at an Unbeatable Price

Choose ArmorPoint for SentinelOne Complete EDR and benefit from our competitive pricing, flexible management options, and integrated support structure, all designed to streamline your security operations and safeguard your digital environment.
