SOLUTION BRIEF

Managed SOC.

Unparalleled Protection Meets Expert Vigilance.

The demands for increased visibility due to the growing nature of cybersecurity threats have led to an inundation of data and disparate tech stacks, making it difficult for security analysts to analyze, triage, and respond to vulnerabilities across numerous tools. ArmorPoint's Managed SOC solutions fuse the capabilities of real-time threat detection and response, sophisticated security analytics, and extensive endpoint protection into a seamless platform, offering a panoramic and unobstructed view of your security posture.

CORE CAPABILITIES

- Integrate and streamline your entire security tool stack
- Reduce alert fatigue and focus on high-priority threats
- Augment your in-house skills with specialized cybersecurity expertise
- Achieve a comprehensive, 360-view of your security posture

SIEM

Ideal for network-wide threat monitoring and forensic analysis

XDR

Provides a comprehensive view of security across all IT layers

SOC

Ideal for visibility across all operational aspects and incident management

MDR

Leverage MDR to enhance threat detection and response capabilities

CORE SERVICES

ArmorPoint 360

Fully managed SecOps that delivers deep visibility and real-time threat remediation to strengthen every layer of your cybersecurity program.

SIEM SOC EDR

ArmorPoint Open360

Consolidate data from critical resources, pinpointing imminent threats, facilitating swift action, and providing unmatched visibility into your security landscape using your own EDR.

SIEM SOC Your EDR

ArmorPoint MDR

Investigate events efficiently and effectively through end-to-end root cause analysis, real-time telemetry, and detailed forensics artifacts to defend every endpoint.

SIEM EDR

FEATURES:	360	Open360	MDR
ArmorPoint SOC Platform	✓	✓	✓
Network device monitoring + collection	✓	✓	
Endpoint threat detection agents	✓	✓	
Fully managed EDR + automated response	✓		✓
Data collection + retention	✓	✓	
Cloud + SaaS detection analytics	✓	✓	
Managed SIEM dashboard + log analytics	✓	✓	
Unlimited incident investigation + escalation	✓	✓	✓
Unlimited guided incident management	✓	✓	✓
Unlimited containment + remediation	✓	✓	✓

Gain Unrestricted Visibility.

Accelerate the maturity of your security operations program without having to build your own SOC. Get a centralized view of your security posture and reinforce your defenses against relentless cyber threats—all from within one unified ecosystem.

Ready to simplify your approach to SecOps? Book a meeting with an ArmorPoint Solution Expert to learn more about our Managed SOC solutions today.
